1. Results of Operations

(1) Overview on consolidated business performance

In the first half of the fiscal year ending March 2021, the Japanese economy plummeted as it was stagnant for a certain period due to the spread of the COVID-19 pandemic. After the State of Emergency Declaration was lifted, economic activity resumed along with measures to prevent the spread of COVID-19 infections. Although this resulted in recoveries in some sectors of the economy, the outlook continues to be uncertain.

In Japan's construction industry, deliveries of some equipment were delayed due to the spread of the COVID-19 pandemic. The environment for orders received was also affected by weak private capital investment, although public-sector expenditures remained firm. As a result, the business climate for the industry remained challenging.

The Hibiya Engineering Group took many actions during the first half to achieve its sales and earnings targets based on three core strategic goals. First is using co-creation with all stakeholders in order to take building life cycle total solutions to a higher level. Second is improving productivity through the use of advanced technologies. Third is working style reforms based on the theme of "Smart Work."

In response to the COVID-19 outbreak, the Hibiya Engineering Group has taken steps to provide a safe environment for employees to do their jobs, including allowing people to work from home and ensuring the safety of workplaces. Furthermore, every business site is taking many actions to prevent the spread of COVID-19.

Due to limitations on sales activities caused by COVID-19 and for other reasons, orders received in the first half were 30,502 million yen, down 7.1% from the first half of the previous fiscal year.

Sales increased 11.6% from the first half of the previous fiscal year to 31,891 million yen mainly due to a concentration of completions of large projects carried over from the previous fiscal year

There was an operating profit of 1,153 million yen compared with an operating loss of 326 million yen one year earlier due to higher profits from increased sales and improved profitability of completed construction projects. Ordinary profit was 1,568 million yen compared with an operating loss of 155 million yen one year earlier. The profit attributable to owners of parent was 1,056 million yen compared with a loss attributable to owners of parent of 140 million yen one year earlier.

(2) Overview of financial condition

Assets

Total assets decreased 7,454 million yen from the end of the previous fiscal year to 76,178 million yen. Current assets declined 8,682 million yen to 55,222 million yen, and noncurrent assets increased 1,228 million yen to 20,955 million yen. The major reasons for the decrease in assets was a decrease of 14,984 million yen in notes receivable, accounts receivable from completed construction contracts and other, although there was an increase in cash and deposits of 7,633 million yen.

Liabilities

Liabilities decreased 9,058 million yen from the end of the previous fiscal year to 16,279 million yen. The main reason was a decrease of 7,506 million yen in notes payable, accounts payable for construction contracts and other.

Net assets

Net assets were 59,899 million yen at the end of the first half mainly due to an increase of 1,237 million yen in valuation difference on available-for-sales securities

(3) Forecast for fiscal year ending in March 2021

The forecast for consolidated results of operations, announced on May 22, 2020, is revised based on recent trends in earnings. Please refer to the "Notice on Revision of the Consolidated Financial Forecast for the Fiscal year ending March 2021" announced today (November 6, 2020).
